

RCN South West
Global Majority Nursing Network
Wednesday 18 September, 5-6pm
Online via MS Teams

Come to the first-ever meeting of our new regional network for nurses and nursing support workers from the global majority.

You are welcome whether you were educated internationally or have international roots.

We'd like to hear about your experiences and the challenges you face, and use the intelligence you provide to learn how we can better support you. We will also use the chance to highlight how we can already support you with existing, often-undersung RCN resources.
