

# RCN Group summary of accounts 2023

## Welcome

2023 was a monumental year for the College as we reached record membership numbers. We began the year with widespread industrial action across England and Wales and continued to campaign for *Fair Pay for Nursing*, across all sectors. We received consistent support from the public and featured heavily across all forms of media. We launched our 5-year strategic plan, *A New Dawn for Nursing* at our Congress in May, as called for in 2 external reports in 2022.

Our strategic plan sets out our 4 key goals and will be the focus of our activity over the next 5 years. The RCN as the Voice of Nursing is a key goal, and the ongoing development of our Institute of Excellence will play a pivotal role in achieving this. We continued throughout 2023 to champion for *Fair Pay for Nursing* through our campaigning and our members strike action. There were some positive outcomes but there is much more to do. During 2023, we have continued to implement the numerous recommendations of the KPMG and Bruce Carr KC reports, and whilst work remains, we have made good progress to ensure our governance structures are robust and fit for purpose.

One of the goals within the strategic plan is to ensure the RCN has a sustainable and viable business model. Our membership numbers have continued to increase during the year, and we now have more than half a million members, this is reflected in an increase to membership income. However, we are exploring how we can expand our other income, which reported a significant increase in 2023. Venue services and continuing professional development, education and consultancy performed well and are expected to grow further in 2024.

We continue to ensure the College remains in a robust and sustainable financial position. Our strong membership numbers are reflected by increased membership income. Our other income streams continued to grow in 2023 following the removal of COVID-19 restrictions. Continuing professional development, education and consultancy performed particularly well and are expected to grow further in 2023. Council also approved a new reserves policy aimed at ensuring the long-term financial stability of the College.

Costs continued to increase during 2023 as we continued to invest in key activities and services such as the *Fair Pay for Nursing* campaign and strike action, developing our organising model, work in the independent and health and social care sector as well as developing our institute of excellence. During 2024 we will continue to invest in these activities and other services to members as well as ensuring the infrastructure underpinning our activities and services are fit for purpose and facilitate achievement of the goals set out in our strategic plan.

We continued to support the industrial action campaign and our members through strike benefit payments. The industrial action strike fund remains at a healthy £38 million and remains available to support our members through industrial action when it is required.

During 2023, our investment portfolio recovered some of the losses of the previous year and finished 2023 strongly. We have continued to also hold significant funds within our short-term portfolio to ensure we have readily accessible funds should we require them. Overall, both our investments and cash reserves are strong and generate income, and the investments provide capital growth in the long term. the short-term fund has also generated income which will in turn help fund investment in our services.

Our separate 2023 *Review of the Year* sets out in detail the wide range of work the College undertook with and on behalf of our members. It records a memorable year which has seen us take some strong steps forward, which could not have been achieved without the commitment and dedication of our members and staff.

#### Income

The RCN Group income for the year ended 31 December 2023 was £104.9m (31 December 2022: £96.7m). The significant differences between income in 2023 and 2022 are shown below:

RCN Group income	2023 £'000	2022 £'000	Movement
Membership	89,893	82,258	Overall increase of 9.3% in member subscription income compared to 2022, driven by the increased number of members. Most of the increase in member income was driven by increased nurse recruitment in the first 6 months of the year as a result of the pay campaign. We then retained the majority of those members over the remaining 6 months of the year, which in turn maintained the higher level of income.
RCNi trading income	10,564	10,863	RCNi trading income (excluding income received from RCN UK) has decreased by 3% since 2022, impacted by economic conditions for individual customers and budgetary limitations for advertisers, sponsors and institutional subscribers.
Other income	4,475	3,550	Other income (excluding income received from other RCN Group entities) has increased by 26%. RCN UK saw a further improvement in venue services income and commissioned programmes.
Total RCN Group	104,932	96,671	Overall RCN Group income in 2023 was £8.3m higher than in 2022.

### Expenditure

RCN Group expenditure for the year ended 31 December 2023 was £103.8m (31 December 2022: £97.7m). The significant differences between expenditure in 2023 and 2022 are shown below:

RCN Group expenditure	2023 £'000	2022 £'000	Movement
Staff	69,023	66,926	Overall staff costs have increased by 3.1%. There was an 8.9% rise in average Full Time Equivalent employed by RCN and RCNi, offset by a reduction in use of agency staff as employees were appointed.
Premises and estates	9,058	8,545	Higher costs in 2023 reflect renewal of IT infrastructure and upgrade of RCN UK contact centre systems.
Accommodation and travel	2,302	1,478	56% higher travel and accommodation costs across the group reflect a combination of higher prices and increased activity, supporting the RCN industrial action, and more face to face contact between staff and members.
Other service delivery	20,990	19,886	2023 costs of legal indemnity scheme were £3.8m higher, as the release of an historic provision in 2022 resulted in unusually low expenditure. Cessation of the printed RCN Bulletin has reduced production costs, and pay campaign costs were lower due to the statutory ballot in 2022.
Strike benefits	2,377	867	£2.4m of strike benefits was claimed by members for industrial action across the UK in 2023.
Total RCN Group	103,750	97,702	Overall RCN Group expenditure has increased by 6.2%.
